SKILLS

- **Programming Languages:** C++, Java, Python, C, SQL
- **Technical Tools:** MySQL, TensorFlow, NLTK, Kali Linux
- **Core Competencies:** Data Structures & Algorithms, Object-Oriented Programming, Natural Language Processing, Machine Learning
- **Soft Skills:** Leadership, Problem-Solving, Team Collaboration, Communication, Adaptability

INTERNSHIP

- Summer Internship - Board Infinity Company** June 2024 - July 2024
- Created a Library Management System, including a login page and an account creation page.
 - Developed a responsive and functional user interface for secure user authentication.
 - Utilized C++, OOPS, and DSA to design the structure and enhance user experience.

PROJECTS

- Lemmatization and Stemming model for Indian Languages** November 2024
- Implemented rule-based and neural lemmatization techniques to normalize word forms for improved NLP tasks such as machine translation, parsing, and word sense disambiguation.
 - Conducted morphological tagging and inflection generation experiments on five Indic languages, addressing resource scarcity in Indian language processing.
 - Evaluated the model's performance in Natural Language Processing (NLP) applications, optimizing stemming and lemmatization for better text analysis and retrieval.
 - **Tech Skills:** Python, NLP, Machine Learning, Deep Learning (TensorFlow), NLTK Data Processing.

- Library Management System:** July 2023
- Accomplished a user-friendly console-based interface for seamless interaction and efficient library operations.
 - Developed and executed a Library Management System in C++ with features for book issuance, returns, and user management.
 - Applied Object-Oriented Programming (OOP) principles such as encapsulation, inheritance, and polymorphism for efficient system design.
 - Optimized search and sorting algorithms to enhance book retrieval and management efficiency.
 - **Tech Skills:** Applied C++ and Data Structures for performance optimization.

- Grocery Website** October 2022
- Worked collaboratively with a team to develop a Grocery website, creating basic structures and applying CSS for a visually appealing and user-friendly design.
 - Improved the website's usability by ensuring smooth navigation and optimizing user interaction for a seamless shopping experience.
 - Designed the platform to enable users to efficiently browse, select, and purchase groceries online.
 - **Tech Skills:** Used HTML, CSS, and JavaScript for front-end design and backend server functionality.

CERTIFICATES

- Bits and Bytes of Computer Networking – by (Coursera) November 2024
- Programming in C++: A Hand on Introduction – by (Coursera) November 2024
- Data Structures and Algorithms – by Board Infinity June 2024
- Mastering Data Structures & Algorithms using C and C++ – by (Udemy) May 2024
- Complete Generative AI with Large Language Models – by (Coursera) May 2024

EDUCATION

- Lovely Professional University** Punjab, India
- Bachelor of Technology - Computer Science and Engineering; CGPA: 7.51 Since August 2022
- GNMPSS School** SBS Nagar ,Punjab
- Intermediate; Percentage: 77% April 2020 - March 2022
- Favorite Courses:** Physics, Chemistry, Mathematics
- GNMPSS School** SBS Nagar ,Punjab
- Matriculation; Percentage: 85% April 2018 - March 2020
